Subject:　　NC Map Version 4.2.2

The latest revision of NC Map, Version 4.2.2, is now available for your use. It can be found on the L&S Server under the following path: *Support/Software/workspaces*. Once into the aforementioned path, download the entire directory *ncdot_ms_stds_location.* If you are currently performing CADD work on an existing project, you should complete that project as started using NC Map version 4.0 and then load *ncdot_ms_stds_location.* Once all projects utilizing NC Map version 4.0 are complete, start all new projects utilizing NC Map version 4.2.2. An itemized list of current revisions to NC Map can be found at: *ncdot_ms_stds_location/mdlapps/***NCMap Version 4 Revision Log.doc.** If you have any further questions related to this matter, please contact Joel Gulledge at (919) 250-4109.
